

**ENHANCEMENT: Utilize desirable native species in the grazing management system through burning, disking or other appropriate management practices.**

#### BENEFITS

(SHORT DESCRIPTION OF ENHANCEMENT BENEFITS)

- Burning, disking, etc, shall be utilized to help establish and/or maintain a native warm season species. Pastures/paddocks of these plants are essential to maximize productivity and diversity.

#### CRITERIA

**To be eligible for this enhancement payment, fields must meet the following criteria.**

- Native species must be properly burned, disked, etc., as a management tool for establishment or management of stands.
- 80% of pasture/paddock must be in native warm season species.

#### RECORDKEEPING

**In order to verify performance with these criteria, you must complete the following records.**

Records of burning, disking, etc. must be kept. They should include dates and pictures showing before and after the conversion/restoration.
